SUCCESS TOOLKIT

These toolkit interventions aim to reduce inappropriate perioperative urinary catheter use, catheter-associated complications including infections and catheter-associated trauma, and improve the management of postoperative urinary retention.

POST-OP RETENTION TOOLS

- Retention Algorithm
- Algorithm for Voiding Trials

APPROPRIATE CATHETER USE TOOLS

- MAP poster
- Nurse Catheter Supply Checklist
- Alternatives to Indwelling Catheters
- BladderSafe.org: A resource for reducing inappropriate urinary catheter use and CAUTI
- BladderSafe phone app – available in Google Play Store or the Apple App Store

AVOIDING CATHETER TRAUMA TOOLS

- Safe Insertion booklet
- Post-difficult catheter insertion cards
- Coude Catheter Insertion Video

ADDITIONAL TOOLKIT INTERVENTIONS

- **Pre-implementation Tools:**
  Urinary Catheter Guide to Patient Safety (GPS)

- **Misc. Tools:**
  SUCCESS Video Repository
