

**DEMOGRAPHICS**

Medical Record Number (MRN)  
 Date of Birth  
 Gender  
 Race  
 Hispanic Ethnicity

**INSURANCE**

Insurance/Payment Type

**SURGICAL PROFILE**

Encounter/Visit Number  
 Principal Operative Procedure/CPT Code  
 Other Procedures Performed  
 Postoperative ICD-10 Diagnosis code  
 Attending Surgeon  
 Surgical Priority  
 Presentation to Hospital Date  
 Hospital Admission Date  
 Operation Date  
 Death  
 Discharge Destination  
 Hospital Discharge Date/Time

**PREOP**

Height  
 Weight  
 Diabetes Mellitus  
 Tobacco Use within 1 year – Cigarette  
 Functional Health Status  
 Ventilator Dependent within 48 hours  
 COPD  
 Sleep Apnea  
 Ascites  
 Congestive Heart Failure  
 Hypertension  
 Personal History of DVT/PE  
 Family History of DVT/PE  
 Dialysis within 2 weeks  
 Current Cancer/Malignancy  
 Disseminated Cancer  
 Steroids/Immunosuppressive Medications  
 Preop Sepsis & Severe Sepsis/Septic Shock  
 Preop Showering/Bathing  
 Mechanical Bowel Prep  
 Preop Entereg®

Parity

Prior Abdominopelvic Surgery Performed

Indications for Procedure & Preoperative Uterine Size

**INTRAOP**

Wound Classification  
 Skin Antisepsis/Skin Prep  
 Surgical Approach  
 Instruments, gloves and/or gowns changed at closing  
 Use of Wound Protector  
 Presence of Drains  
 Ostomy Performed  
 Bowel Anastomosis Technique  
 Vaginal Prep  
 Bleeding Barrier  
 Patient in Room Date and Time  
 Procedure/Surgery Start Date and Time  
 Procedure/Surgery Finish Date and Time  
 Patient Out of Room Date and Time  
 Principal Anesthesia Technique  
 ASA Classification  
 RBC Transfusion - Intraoperative  
 Intraop Mechanical VTE Prophylaxis Utilized  
 Postop Temperature  
 Preop/Intraop Pharmacological VTE Prophylaxis Administered

**PROPHYLACTIC IV ANTIBIOTICS****POSTOP**

Postop Entereg®  
 Postop Pharmacological VTE Prophylaxis  
 Glucose Management on POD 1  
 Post-Discharge Extended VTE Prophylaxis  
 Postop Mechanical VTE Prophylaxis Utilized  
 Specimen Weight

**LAB VALUES: PREOP AND POSTOP**

Hysterectomy cases only

**POSTOP OCCURENCES**

Superficial Incisional SSI  
 Deep Incisional SSI  
 Organ/Space SSI  
 SSI – PATOS  
 Pneumonia - Postop  
 Pulmonary Embolism  
 Urinary Tract Infection - Postop  
 Stroke or CVA  
 Cardiac Arrest Requiring CPR - Postop  
 Myocardial Infarction - Postop  
 RBC Transfusion - Postop  
 DVT Requiring Therapy  
 Postop Sepsis & Severe Sepsis/Septic Shock  
 C-difficile  
 Anastomotic Leak  
 Ileus Requiring NG or NPO

**POSTOP EVENTS**

Presentation to ED or Urgent Care  
 Readmission  
 Return to Operating Room

**FOLLOW UP**

# 2019 MSQC Core Variables

# 2019 MSQC Optional Variables

## COLORECTAL CANCER

Adenocarcinoma  
Preoperative CEA Level  
Date of Preoperative CEA Level  
Pre-treatment Staging Test  
Preoperative Staging Test, T and N Stages  
Neoadjuvant Chemotherapy and/or Radiation Therapy  
Preoperative Rectal Cancer Location  
Metastatic Cancer  
Preoperative WOCN Referral/Consultation  
Ostomy Site Marked, Preoperatively  
Reason for Permanent Ostomy (any)  
Mesorectal Excision  
Pathology Report Tumor Stage (TNM)  
Total Number of Lymph Nodes Examined  
Positive Surgical Margin  
TME Grade

## ENHANCED RECOVERY

Preadmission Teaching/Counseling  
Preop Clear Liquids  
Carbohydrate Beverage  
Preop Nausea and Vomiting Screening for PONV  
Intraop Nausea and Vomiting Prophylaxis for PONV  
Intraop IV Fluid Management Approach  
Intraop Order - Use of Multimodal Pain Management  
Thoracic Epidural Use - Open Surgery  
IV Fluids Discontinued  
Chewing Gum  
Postop Clear Liquids Provided  
Postop Solids Provided  
Date Tolerating Diet  
Foley Removed  
Ambulation First 24 Hours  
Ambulation BID POD 1  
Ambulation BID POD 2  
Postop Order - Use of Multimodal Pain Management  
Date Pain Controlled - PO Medication  
Date Return of Bowel Function  
Postop Teaching/Counseling  
Date First Postop Surgical Appointment  
Reason for Readmission

## PAIN & OPIOID USE

Satisfaction with Care  
Quality of Life  
Decision Regret  
Pain in the first 7 days after Surgery  
Surgical Site Pain Score in the Last Week  
Other Body Pain Score in the Last Week  
Percent Recovered  
Return to Normal Daily Activities  
Preoperative Opioid Use 30 Days Prior to Surgery  
Taking an Opioid in Year Prior to Surgery?  
Pain Score Closest to "Patient in Room" Time  
Type of Opioid Prescribed\*  
Opioid Unit and Dose Prescribed  
Quantity Prescribed  
Was the Prescription Filled?  
Do You Know How Many Doses Taken?  
How Many Doses Taken Since Surgery?  
How Many Refills Were There?  
Patient Currently Taking This Medication?  
Current Opioid Unit and Dose

\*required for all cases
