

Michigan Department of Health and Human Services

# Cancer Genomics Webinars

Co-hosted by the Michigan Cancer Genetics Alliance

Please join us for the following webinar:

## “Universal Tumor Screening for Lynch Syndrome”

**Wednesday, August 26, 2020**  
12:00 noon - 1:00 p.m. Eastern Time

**Heather Hampel, MS, LGC**

After attending this webinar, participants will be able to:

1. Understand the prevalence of and cancer risks associated with Lynch syndrome.
2. Identify the current cancer surveillance guidelines for Lynch syndrome and appreciate their efficacy.
3. Advocate for universal tumor screening for Lynch syndrome in their institution if it has not already been implemented and improve their program if it has already been implemented.

Heather Hampel, MS, LGC is a Professor in the Department of Internal Medicine, Associate Director of the Division of Human Genetics, Associate Director of Biospecimen Research for the OSU Comprehensive Cancer Center, and Director of the Biospecimen Services Shared Resource. Current research interests include early-onset colorectal cancer, Lynch syndrome, universal tumor screening for Lynch syndrome, tumor sequencing, and detecting germline mutations from tumor sequencing.
