

2024 Michigan Surgical Quality Collaborative			
Performance Index Scorecard			
Project Time Period: 1/1/2024 – 12/31/2024			
Measure	Weight	Measure Description	Points
1	6	Collaborative Meetings (4 offered) – Surgical Clinical Quality Reviewer (SCQR)	
		3 or more meetings	6
		2 meetings	3
		1 meeting	1
2	6	Collaborative Meetings (3 offered) – Surgeon Champion (SC)	
		2 or more meetings	6
		1 meeting	3
		0 meetings	0
3	4	Conference Calls (3 offered) – SCQR	
		2 or more calls	4
		1 call	2
		0 calls	0
4	4	SCQR Participation/Engagement	
		Participated in at least one MSQC activity listed in the supplement document.	4
		No Contribution: Did not participate in any activities listed in the supplement document.	0
4	4	SC Participation/Engagement	
		Participated in at least one MSQC activity listed in the supplement document.	4
		No Contribution: Did not participate in any activities listed in the supplement document.	0
5	6	Completeness of Data (maximum 6 pts available)	
		Sampled and incomplete cases \leq 0.5% total volume	1
		Case Selection Audit with \geq 95% agreement	1
		30 day follow-up rate \geq 80% for 4th quarter 2023 (October – December cases)	1
		30 day follow-up rate \geq 80% for 1st quarter 2024 (Jan – March cases)	1
		30 day follow-up rate \geq 80% for 2nd quarter 2024 (April – June cases)	1
		30 day follow-up rate \geq 80% for 3rd quarter 2024 (July – September cases)	1
6	20	Collaborative Wide Measure: Preop Optimization for elective abdominal hernia surgery:	
		<ul style="list-style-type: none"> Reduce rate of persons with body mass index (BMI) \geq 40kg/m² undergoing elective surgery to \leq 12.5% Reduce rate of persons with active tobacco use undergoing elective surgery to \leq 15.5%. 	
		Meet both measures	20
		Meet one measure	10
		No measures met	0
7	5	Complete documentation of designated cancer variables (CRC, Breast, Whipple, Thyroid)	
		90 - 100%	5
		< 90%	0
7	40	Quality Improvement Initiative (QII) - choose from one of the following: Option A: SUCCESS OR Option B: Frailty OR Option C: Breast Surgery OR Option D: Preoperative Testing (by invitation only)	40
7	5	Submit project report detailing local processes and structures and outcomes for improving adherence to Collaborative Wide Measure	5
Optional	5	Bonus points to be added ^A to reflect active participation in MOQC over-sampling of hysterectomy cases. Points available when:	
		Site fully participates by over-sampling and abstracting all gyn-onc hysterectomy cases	5
		Site partially participates by over-sampling gyn-onc hysterectomy cases only	2
Optional	5	Site participates in September, 2024 MSQC Poster Session <i>Only eligible for additional credit if the requirements for a separate engagement activity have already been met</i>	5
Total Available Points			100

^AEarned bonus points will be added to Scorecard total, with final score not to exceed 100 points overall.
See MSQC/MOQC Cross-Collaborative Project Summary document for details.
